IOHA is pleased to announce the 8th International Conference “*Health, Work And Social Responsibility. The occupational hygienist and the integration of environment, health and safety*” which will be held in Rome from September 28th to October 2nd 2010.

The event is organized by AIDII, Italian Industrial Hygiene Association, on behalf of IOHA and by INAIL and ISPESL, the two Italian institutions responsible for prevention and insurance of professional risks.

Why you should participate to IOHA 2010:

Scientific contributions: with over 800 scientific contributions from all over the world this event is one of the most important of this sector.

Lectures, keynotes and workshops: the conference will include 10 keynote lectures, 25 workshops, 15 Professional Development Courses, about 300 oral communications and 250 posters, several round tables, professional meetings and other scientific activities.

Speakers: researchers and professionals from the most prestigious universities, institutions, organizations and professional associations dealing with health and occupational safety issues.

Topics: they range from traditional issues of occupational hygiene to “new frontier” topics.

Scientific Partners: the main National, European and International Institutions will attend IOHA2010. To know about partners who have already joined us, see SCIENTIFIC PARTNERS and PATRONAGES.

Publications: a special issue of the Annals of Occupational Hygiene will be dedicated to selected papers from the Conference. A special issue of the Italian Journal of Occupational and Environmental Hygiene (IJOEH) will be dedicated to the keynote lectures. Abstracts will be published on the Abstract Book. Moreover, other specific publications will be arranged by the organizers of the workshops.

Certification Maintenance (CM) Points: Approval for CM points has been asked to all associations belonging to NAR (ABIH, AIOH, BOHS, CRBOH, NWA, SOFHYT, ICFP, NYF, SAIOH, SSOH).

Audience target: an attendance of about 1.000 people is expected, among the world leading scientific and professional experts in workers’ health, safety, environmental issues and social responsibility. A unique opportunity to build up scientific and professional networks but also an occasion for lobbying.

Location: the conference venue is in the heart of the historic centre of Rome, close to St Peters, the Vatican Museums and the Coliseum. Attending the conference you can take the opportunity to know the wonders of the world’s most beautiful city.

Join IOHAROMA2010, the biggest international event on occupational hygiene!

Professional Development Courses will be held before the beginning of Conference works on Sunday 26th and Monday 27th September. Keynotes, Workshops, Scientific Sessions and Meetings will take place between Tuesday 28th September and Saturday 2nd October. Here below you can find a provisional programme. The final official programme will be posted on our web site www.ioha2010.org shortly.
